

Electric parts checking mod. 2T 80-85-125-144-250-300

temperature 20°C

Spark plug check

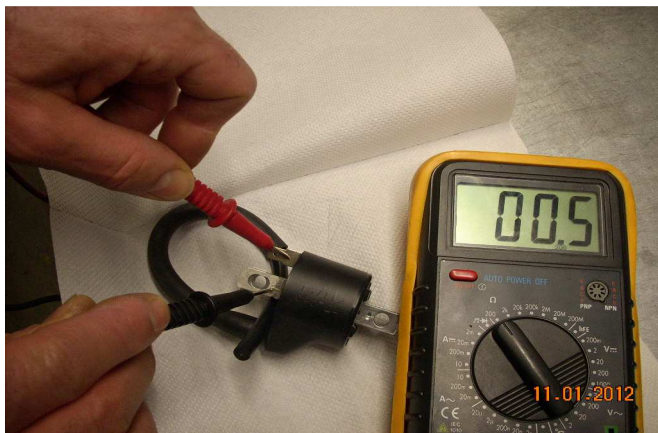

Correct electric resistance **5.0 K.Ω +/- 3%**

Secondary coil check

Tip on ground frame/coil & tip on spark plug wire

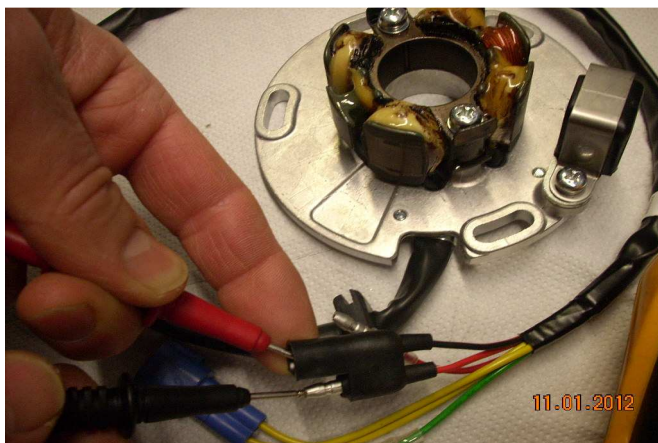

Correct electric resistance **6.2 K.Ω +/- 3%**

Primary coil check

Tip on ground frame/coil & tip on positive coil

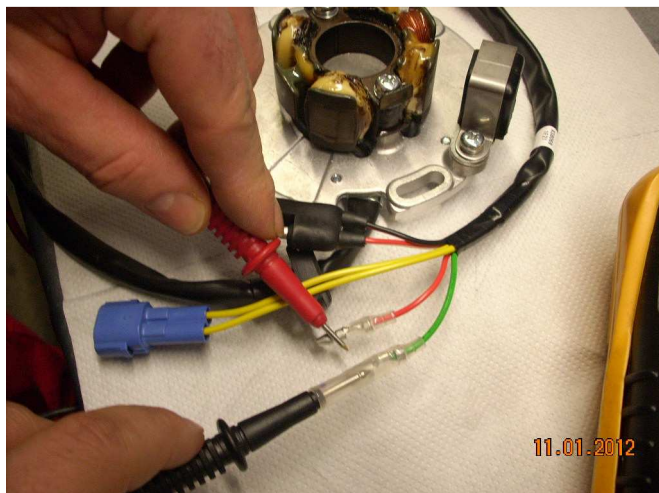

Correct electric resistance **0.5 Ω +/- 25%**

Stator winding check

Tip on red/white cable & tip on red/black cable

Correct electric resistance **26.0 Ω +/- 20%**

Pick-up check

Tip on red cable & tip on green/cable

Correct electric resistance **100 Ω +/- 20%**
